

# KM-01

**Brand:** Dino-Lite  
**Product Code:** KM-01

## Short Description

Remote focus control

## Description

The KM-01 can be used to control the Dino-Lite focus wheel without touching the device. This is especially useful when the Dino-Lite needs to be isolated during use.

The touch controls on the durable KM-01 control box provide instant response, but the KM-01 can also be controlled with the DinoCapture 2.0 software. The KM-01 can be mounted on the RK-04/RK-05/RK-06A/RK-10A Dino-Lite stands, or on 3rd party stands with a 10mm diameter pole.

*The KM-01 is compatible with certain models of Dino-Lite. Please consult your local reseller or Dino-Lite Europe for further information.*
